Groups call attention of Filipinos to guard elections  
Urban poor groups, students, NGO workers and individuals belonging to Pandoyan group in Cuyayaning Province (PANDOYAN) and Ateneo Center in Zamboanga City in Mindanao call attention of Filipinos to guard elections. This is a mass of crowd time for the Philippines. The election is done successfully, represents a clean break from the corrupt and morally bankrupt administration of Gloria Arroyo. Pandoyan and her gang of thugs creates a break that will honorably lead to a positive and new beginning. Pandoyan urge the Filipino people to guard against any effort to rob us out of our votes through massive cheating or a violent grab of power that will paralyze the Philippines.

taxi-SUV collision in Taguig  
Taxi and SUV collision. Taxi driver is not injured however the driver of the SUV has to be rushed into the hospital. The taxi is at fault because he should have yielded as the SUV has the right of way. The impact was so strong it caused the SUV to be thrown meters away from the point of collision. This particular intersection never fails to have a major accident such as this every week. There was a fire last week where 3 accidents were recorded in just one morning. There are no traffic signs but there are many traffic signs, the sad thing though is that drivers are just ignoring them. There are also speed zones in place. Poor discipline and knowledge about traffic signs is the root cause of accidents like this.  
Jedson Avila | 2010-03-23 | Taguig City Metro Manila 150

**Genovese celebrated 100th Birthday**  
100th Birthday celebration of Genovese Cortes Matias or "Young Nigoy" as called by most of her family members. She was born April 11, 1910 and was alive and smiling during WWII. She lived 100 years. Her husband was a doctor and she was the wife of a general. She has 8 wonderful children and lots of grand children and great grand children all distributed around the world. In her last year, she still read the bible, took meals/dinner a little of the backyard, clear hearing, no signs of dementia, and continued busy even at her 100th. At her top, she still read the newspaper, her diet was mostly fish, a little meat and vegetables (vegetarian), and enjoyed with her home in the mountains. Last birthday (April 11, 2010) all family members and friends, relatives and out of town guests celebrated this wonderful birthday celebration. Meeting and out of town guests celebrated this family meeting of generations coming together and reunion.

Heavy rains, strong winds and hailstorms lashed Riyadh on Monday May 03, 2010 07:40AM. Heavy rains, strong winds and hailstorms lashed Riyadh on Monday, causing traffic snarls as many roads were submerged. No serious accidents have been reported so far. The downpour lasted for more than 45 minutes. An official from the Presidency of Meteorology and Environment Protection (PME) said that the rains would continue over the next 24 hours. He described the weather conditions as a "downpour" and said winds were blowing at 42 kilometers per hour from the southwest. The PME urged citizens and residents to take precautionary measures. Samar boarder placar gets a surprise welcome from his school, family  
This is a surprise welcome to the 8th Placer of the May 2010 CPA Licensure Exam who is from SAMAR. His name is Mr. Reynaldo M. Purobasado Jr. of Christ the King College (CKC), Calatagan City (Samar). Mr. Purobasado, as he is fondly called by his friends, was able to make his study and work while he was still a college student due to poverty. He graduated Magna Cum Laude. To show appreciation to his achievement, a kind-hearted Calatagan resident for the first time expenses in going home to Calatagan City. By the way, CKC, a Franciscan-run school, is also one of the Tenmo CAC High School Zone (Zone 1) Colleges.

New action of Marikina. Contractors if we really have to pay for this realignment or relocation of high tension wires that that enter in our lot area? We had already informed Marikina and Metro 2010 regarding this high tension wires that enter in our lot area because our house is under construction and the high tension wires got attached in the construction site that is why they let us get to find barrier for protection. And it below is the installation of the said wires, but still now no action was made and they were asking for payment, estimated of P10,000.00 per month. For now, we are just putting wooden stand to put away that wires for the construction workers to be safe. Hope GMA7 producers will help us with this case. **Road construction at Buenavista, Maybunga, Pasig**  
the contractor started digging the road after holy week, until now the road is not finished yet you can see on the pictures that the corner road is left open and there are exposed metals which are causing hazard. Yesterday one pedestrian fell in the hole because water flows easily as the drainage are stopped. several vehicles have also been victims to this. Please help us residents so the contractor can fast track the job, we've been complaining but to no avail, we have unconfirmed reports that the contractor is the Soc Chairman of pasig.

**Carlessness Caused Accident**  
The road is descending towards the church in Pobocan, Region Bangue. The driver of the vehicle forgot to pull the hand break, he stepped out of the seat vehicle and helped one of the passengers unload her baggage. Five of the remaining passengers (3 ahead of the back and a child and baby stroller in front) were waiting for the driver than suddenly the vehicle is descending, the passengers, by mistake as well as the driver panicked and tried to pull the vehicle but he can't. It's a good thing it hit the wall and none of the passengers got injured. Hopefully this will serve as a lesson to all the drivers out there to be careful always anytime and anywhere.
