

Adding a Block

This page demonstrates the steps in adding a Block in UVLe.

Turn editing on and add a block

The screenshot shows the UVLe course administration interface. The top navigation bar includes 'UVLê', 'Course administration', 'Switch role to...', 'My profile settings', 'Site administration', and a 'Search Courses' button. The main content area is titled 'UVLe for Science' and displays a 'Topic outline' with five sections: '1 Mathematical Expressions', '2 Chemistry Sample Lessons (Packages)', '3 Sample Biology Lessons', '4 Sample Physics Lessons', and '5'. Each section has an 'Add an activity...' and 'Add a resource...' button. On the right side, there is a 'Turn editing on' button (labeled 1), a 'Search forums' box (labeled 1), and a 'Latest news' section. A blue rectangle highlights the 'Add a block' menu (labeled 2) which is open, showing a list of block types including 'Quickmail' (labeled 3). The 'Quickmail' block is highlighted with a green circle. The left sidebar contains a 'Hi UV!' greeting, user profile links, 'Recent activity', and 'Upcoming events'.

After logging in, go to your assigned course. Click on (1) **Turn editing on** and on (2) **Add** under **Add a block** (see blue rectangle above). Then choose a particular Block to be added (in this example, **Quickmail** block).

Examine the Block

The screenshot shows a Moodle course page for 'UVLe for Science'. The top navigation bar includes 'UVLê', 'Course administration', 'Switch role to...', 'My profile settings', 'Site administration', and a search bar. The main content area is titled 'Topic outline' and lists three topics: '1 Mathematical Expressions', '2 Chemistry Sample Lessons (Packages)', and '3 Sample Biology Lessons'. Each topic has a list of activities and resources. On the right side, there are several utility blocks: 'Search forums', 'Latest news', and 'Quickmail'. The 'Quickmail' block is highlighted with a blue rectangle and contains the following options: 'Compose New Email', 'Signatures', 'View Drafts', 'View History', and 'Configuration'. The left sidebar contains user information, recent activity, and upcoming events.

Once done, you should see an added block. In this case **Quickmail** (see blue rectangle above).
