---

Over the years that the fortune of the University Hotel has gradually been turned around, its current management has been guided by the tenet that the hotel has to sustain and enhance its relevance and usefulness to the University as a whole.

Aside from providing the basic hospitality amenities that a huge world-class academic facility needs and should provide, the Hotel has managed to contribute consistently a fixed percentage of the revenues generated from its operations to the coffers of the University.

Now that the hotel has reached its current level of growth and development, with steadily improving financial bottom lines, the management is pleased to announce a new round of perks and privileges for the benefit of the University's programs and activities as well as for its individual faculty, REPS, administrative staff, and even for the alumni.

As approved by the Board of Overseers of the University Hotel, the following discount entitlements shall take effect on 7 May 2012:

- 15% discount on lodging fees, food and drinks, function rooms and other services for all University and Foundation functions and activities which are paid for out of their internal operating budget.
